

# MORE BLOOD NEEDED TO WIN

## McGill Daily

Vol. XLV — No. 20

MONTREAL, THURSDAY, OCTOBER 27, 1955

PRICE: TWO CENTS

### SECOND LECTURE IN BEATTY SERIES TONIGHT

Mrs. Barbara Ward Jackson tonight gives the second of her three Beatty Memorial Lectures entitled "East and West: Contrasts and Elements of Collaboration."

Mrs. Jackson in her last two lectures will discuss the role of action that the Western democratic nations can take in their relationships with the Eastern civilizations. It will be the wisdom of this course of action that may decide the choice of government taken by the Eastern nations — nations now in the revolutionary stage.

Quadrennial seminars on a re-

### EIGHT AWARDED FELLOWSHIPS

Research fellowships having a total basic value of \$12,000 have been awarded to eight Ph.D. candidates by McGill University and the University of Toronto. They are donated by Union Carbide Canada Limited to encourage academic research in all branches of the Physical and Social Sciences.

Here at McGill, E. Graham Bligh, M.Sc. (Cambridge) from Nova Scotia, is conducting research in the Department of Biochemistry under the direction of Dr. R. D. H. Heard. Mark S. Van Ermengen, B.Sc., formerly of Brussels, Belgium, is conducting research in the department of Geology under the direction of Professor John E. Riddell. Norman Klassen, B.Sc., formerly of Winnipeg, Manitoba is investigating a possible reaction between hydrogen chloride and active nitrogen in the department of Chemistry under the direction of Dr. C. A. Winkler. Issie Shkarofsky, B.Sc., of Montreal, is conducting research in the Department of Physics under the direction of Professor G. A. Wootton.

The selection of the students and the administration of the awards are entirely in the hands of the participating universities.

### Camera Club Hold Exhibition tonight

The Camera Club will hold their Second Photographic Equipment Exhibition tonight at 8:30 in the Union Lounge. This is the first official function of the Camera Club. The executive of the club hopes that all students interested in photography will attend.

lated topic, "Revolution and Reconciliation" will be held at the S. C. M. house on Monday at 1pm and Wednesday at 8 pm.

Mrs. Jackson's talk tonight is at 8.30 pm in the Sir Arthur Currie Memorial Gym. Students especially are urged to attend.

### DR FLESSEMAN TO ADDRESS SCM GROUP

Dr. Ellen Flesseman, the noted Dutch theologian and scholar will speak to the members of the Student Christian Movement at 8 pm, on Monday, November 7, on the topic "Israel and the Church".

Her return visit to North America this fall has been for the purpose of leading Bible studies at the National study conference of the S.C.M. Movement of Canada and to deliver a series of lectures at Yale Divinity School.

Dr. Flesseman, after graduating from the University of Amsterdam in classical languages, made her way to the United States where she took her Bachelor of Divinity degree at Union Theological Seminary in New York. She later published a scholarly work entitled "Tradition and Scripture in the Early Church."

During her visit to Montreal Dr. Flesseman will direct leadership training schools for the Y.M.-Y.W.C.A. and also address the students of McGill's Faculty of Divinity.

### Richard Pennington To Lecture On German Culture

At 8.20 pm tonight, Mr. Richard Pennington, the University Librarian, will speak to the German Club on, "Faust, the Devil's Printer". The lecture will be the first of a series on German culture and will take place in the Union Clubroom.

In his address Mr. Pennington will describe the origin, and the many technical problems, which the printers of the fifteenth century had to face. He will also discuss the difficulties of the modern historian in determining the individual contributions of these early printers to the printing art.

Future speakers will deal with the art, music and letters of Germany. Club members and all others are welcome.

#### Lecture Tonight

Barbara Ward Jackson

### ASUS ELECTIONS RESCHEDULED

The Arts and Science Class Elections will be reheld on Friday, Oct. 31. Don MacSween, A.S.U.S. president, said, "It is regrettable that several unavoidable incongruencies in the ASUS Election Procedure have rendered invalid yesterday's election and have necessitated the holding of new Class Elections."

There have been complaints by the candidates that some students voted without proper qualifications. Since there was no list of eligible voters, some students are said to have voted more than once; others voted even though they were not in the faculty of Arts and Science. Some students voted who were only in 1st year, while others put extra ballots in the box when no one was looking.

The president of the ASUS said that the Executive was partly at fault since the returning officers did not initial the ballots as they were cast. He added that there was no excuse for those students who took advantage of this inexcusable error, and exploited it to the full rather than correct it.

Students who are at McGill for the first time this year or who failed last year in either second or fourth year and wish to appear on the electoral lists are to go to the ASUS office in the Union on Thursday or Friday between 12 and 2 pm.

#### ANNUALS

There are to date 106 people who have not as yet gone to the SEC office to pick up their copies of OLD MCGILL '56. If you are one of those people and have lost your receipt you need only to present identification and you will receive your Annual. Please go now and collect them before they are confiscated.

### COMMITTEE HOPES SLUMP TEMPORARY

After a "disappointing" 314 pints collected yesterday, the Blood Committee announced a total of 1016 collected for three days of the seven-day Blood Clinic.

Tony Straessle, Committee Chairman, stated that with the comparatively low amount of blood collected yesterday McGill students have greatly lessened their University's chances of winning the Birk's Trophy.

A daily average of approximately 357 pints would have to be collected from today until next Tuesday, when the Clinic closes, in order to collect the 2455 pints needed for the Cup.

#### Competition Ruling

In protest against the handicap ruling University of Montreal handed down to McGill Tuesday, a joint meeting between members of the two Blood Committees was held yesterday. It was agreed that McGill's ultimate goal should be 2455, and not the original 2470; however, if McGill fails to accumulate 2119 pints of blood, the total obtained by U of M at the close of their Clinic, they win the Trophy. If McGill's final total lies in between 2119 and 2455 the cup will be forfeited by both Universities for this year.

For the benefit of those students who can donate only at 5 pm, Clinic registration will remain open until 5:10 pm for its remaining four days.

#### Faculties

Final totals and percentages for the first three days include:

Faculty of Commerce:	143 pints	33.1%
Faculty of Arts & Science:	354 pints	29.6%
Faculty of Engineering:	363 pints	25.7%

In the other faculties: Physio-Therapy and Physical Education - 38; Medicine - 34; Graduate Studies - 23; Law - 20; Staff - 13; Divinity - 11; Nursing - 10; Dentistry - 6; Education - 3; Music - 2; Social Work - 1.

#### Fraternities

Contributions from men's fraternity now total 309. The Phi Ep's are still leading the race with 38; Sigma Chi is second with 30; the Phi G's are in third place with 28.

Thirty-eight pints of blood have been received from the women's fraternities. In the breakdown - the A.G.'s and the Gamma Phi's are tied for first place with nine pints each to their credit; Kappa Alpha Theta follows with six, and the D.G.'s run a close third with five pints.

#### Residences

In the residences, the RVC east wing leads the west and main wings with a total of 21 pints to 18.

Wilson Hall and Douglas Hall have 29 and 28 respectively.

### Debating Union Holds Trials

The Debating Union will hold its senior trials in the Union this afternoon from 3-5 pm. Once again the committee would like to point out that no person will be considered for a regular intercollegiate trip who does not take part in these trials. The topics given may be treated in any fashion, humorous or serious, but the speakers are asked to confine their speeches to a five minute time limit.

Novices, (those having done no previous intercollegiate debating,) who could not participate in the trials Tuesday may speak this afternoon. Although they will have to debate either affirmatively or negatively on the resolutions that have been chosen for to-day, they will be judged on a novice level, and will not be competing with the senior debaters.

The topics for the debate are: "Resolved that the Principle of Laissez-faire best fulfills the requirements of man." This topic is not restricted to its Economic meaning but may be taken in any sense. The other topics are: "Resolved that the time has come to resolve all conflicts", and "Resolved that the leadership of the U. S. A. in world affairs is not best serving the interests of Canada."

These debates are not restricted to male students only; co-eds are

invited to enter the trials. The debating will take place in the Walter M. Stewart room.

### MR. M. MARSDEN ON CANADIAN NORTH

Last night the Franklin Society held its first meeting of the year. Over sixty people were present to hear Mr. M. Marsden discuss the geographical characteristics, particularly the glaciology of Ellesmere Island which is approximately six hundred miles from the North Pole.

Mr. Marsden who is a member of the Arctic Institute and a Carnegie Scholar was sent there by the Canadian Government for five months. His main purpose was to observe how the land is affected by the ice and his work for the most part was carried out in the vicinity of Eureka, a small weather station on the island. His description was made more vivid by his many colourful pictures.

President Ben Bonnländer welcomed new members to the society and outlined the program for the coming year. It will include discussions and films on the plant and animal life, the geology and the general human aspect of Canada's Northland where there have been many recent and rapid changes occurring.

## Editorial

## WOODSMAN SPARE THAT TREE

Recently two articles appeared in these columns examining the function and purpose of a College literary magazine. We believe Mr. Sanderson and Mr. Brierly in their enthusiasm succeeded only in obscuring the many problems involved, and it is our intention to attempt a clarification.

Essentially Mr. Brierly's argument condenses to the somewhat dogmatic insistence that "The student literary magazine concern itself solely with students and the writing they do." This exclusion of the rest of the university is a departure from a longstanding and distinguished tradition of McGill literary publications from **The McGill Fortnightly Review** to **The Forge**. This very exclusion may help explain the "literary impotence" of which Mr. Sanderson complains.

What then is the purpose and function of a College publication such as **The Forge**? Perhaps we could do no better than quote an editorial statement from an early McGill publication which is in the best tradition of enlightened student writing.

"We are certain that the periodical will do justice to our university and will prove a useful organ of intelligent opinion and criticism."

"The editorial policy is simply that there be no policy. It is the desire of the editorial board to make this magazine a representative university publication. There are in our midst conservatives, liberals, and labourites, idolators and iconoclasts, traditionalists and ultra-modernists, religious adherents and religious sceptics, idealists and materialists, patriots and cosmopolites. Every opinion and class is represented in our university population, and every opinion and class will obtain equal and unprejudiced consideration from the editors. All that the editorial board requires of a contribution is that it have literary excellence, and be devoid of any wilful offensiveness. There is nothing we should welcome more than to have side by side articles of divergent views and of diametrically opposite opinions."

**The Forge** must be a meeting-place of ideas from all parts of the university. It matters little whether these ideas are expressed in literary or scientific terms, in poetry or prose. The only criterion must be quality.

We sincerely hope that **The Forge** may become again a joint student faculty venture. Two years ago an effort was made to return to this tradition, and in Mr. Brierly's own words, "A fine

issue was published." But the vision of a truly representative magazine somehow disturbs Mr. Brierly and it appears he intends to limit his edition of **The Forge** to student work only because "it is more appropriate." We believe this is a regrettable decision.

Obviously if students and staff contribute to the same magazine, the problem of balance becomes a highly important one. How much faculty work should be included? Are all contributions to be judged by the same standards? Are students qualified to evaluate the writing of their professors? Undoubtedly **The Forge** must remain in student hands. The editors must be free to select and reject manuscripts.

But, as the 1954 edition reveals, these problems are not insoluble. Of the five articles published in this issue, there were two student contributors and three from the faculty. Of the eight poets represented, two were on the staff, one of whom was also engaged in graduate studies. Similarly, in the fiction section, of the five student contributors, one was a staff member at another college. Many members of the junior staff, interested in writing, are at the same time doing graduate work. This reveals the absurdity of making an arbitrary division between faculty and student.

We respectfully urge the present editorial board of **The Forge** to re-examine its policy in the light of the above suggestions. It is not our intention to intimate that **The Forge** needs faculty contributions to support jejune undergraduate writing. There are, contrary to Mr. Sanderson's opinion, many promising writers on the campus. But the faculty, by its presence in the magazine, can do much to stimulate student thought and creativity. We wish only to establish the need for a university periodical which will be truly inclusive, containing the best that is being thought and written at McGill.

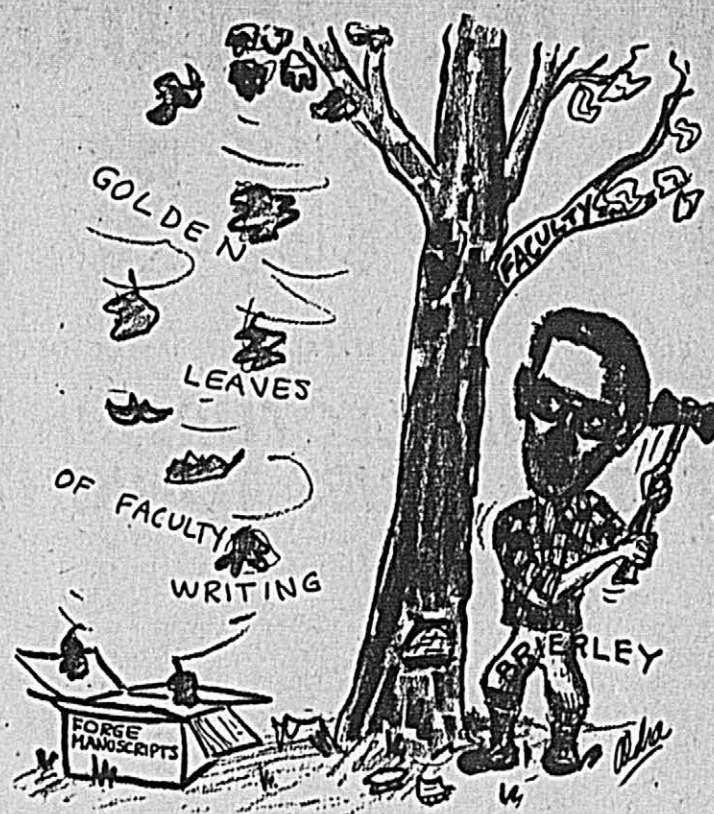

We feel that the editor of the 1954 edition indicated a pattern for the future of **The Forge**, which the present editors would do well to follow. "It is the aim of the editors that this magazine by becoming truly an organ of university thought, not simply student thought, should help to build and maintain a sense of university community. If we can increase, however slightly, the effectiveness of communication within this community, we can help make the university a better one, more stimulating for its members, and more useful to society."

## NURSERY POLITICS

A number of protests have been received concerning members of This University who successfully stuffed the ballot boxes during yesterday's ASUS election. We feel that this is rather pretty. Besides it must have been incredibly easy to do. If the ASUS is to achieve any

stature on this campus they will have to organize themselves much more efficiently.

The election has been invalidated and a re-balloting will be held on Friday. We do not feel that this is a complete solution.

Brierley, The Woodsman, Will Not Rake His Lawn . . .

## Letters to the Editor

## Call For Debate

Sir:

If Joliot Curie, Marcel Prenany, I. P. Pavlov and countless other scientific figures guided themselves as they have averred by Marxist principles in their research, how is it that Professor Wright can so cavalierly dismiss Marxism as scientific nonsense?

Truth emerges only from the freest exchange of opinion. Therefore the McGill Labour Progressive Party invited Professor Wright to debate publically the Scientific Validity of Marxism, at his earliest convenience. We anxiously await his acceptance.

P. Nerenberg,  
President LPP Club.

## VISITING RCAF TECHNICAL OFFICERS

1. The RCAF is sending a team of Technical Officers to Montreal, in order to familiarize Engineering and Science students with the type of work done by Technical Officers in the RCAF and to outline the types of equipment in use by the RCAF. All students are invited to avail themselves of this opportunity to learn of the advantages that the RCAF has to offer in the technical field. The team will consist of W/C Diggle BENG (SASK 40) and S/L R. E. Steer, B SC, Hon Phys (Toronto 39).

## 2. The program will be as follows:

- (a) THURSDAY and FRIDAY 27 OCT and 28 OCT 9.30 AM - 5.30 PM — The visiting team will be available for informal consultation with all interested parties in the Faculty Room, Room 416, McGill Engineering Building.
- (b) THURSDAY 27 OCT 7.30 PM — Open House in the COTC Mess, 3rd floor of the Currie Gym, for informal discussion, questions, etc.

ALL ARE WELCOME TO ATTEND.

## 3. The visiting team is prepared to give information on the following points:

- (a) Familiarize the technical students with the requirements for, and the qualifications and duties of a Technical Officer in the RCAF.
- (b) Types of Commissions available.
- (c) Job importance — Type of work Technical Officer does. — Types of equipment.
- (d) Comparison of RCAF to civilian firms.
- (e) Type of people you would be working for and with.
- (f) Living conditions.
- (g) Careers and Promotions.
- (h) Pay and Allowances.

## IN CHARGE OF THIS ISSUE

NEWS  
Jerry Sigman

Daily Photo by Peter Rehak.

THE WESTERN MUSTANGS boast the most potent running attack in the league. Garnet Mason (15) of the Mustangs is shown eluding the grasp of Dick Carr of the Redmen in the first game between the teams which ended in a 6-6 tie. Note the Western lineman holding Carr's leg.

## MUSTANGS EXPECTED TO BE STRONGER

The Western Mustangs will try to throw a monkey wrench into Larry Sullivan's playoff aspirations this Saturday afternoon in London.

For the first time in over a decade the Mustangs are faced with the possibility that they will land up in the league cellar, a position usually held by the Redmen or Queens. This uncomfortable fact dawned upon Johnny Metras last week in Kingston and the Mustangs came up with their highest scoring performance of the season, seventeen points. It was not enough to defeat the Gaels but this performance did serve to show that Metras is working out the kinks in an offence which had only scored one touchdown previously this year.

Early in the year there were

stories of dissension when Willie Casanova quit the Mustangs. Observers were greatly impressed with the Mustangs showing last week, however, and Redmen coach Larry Sullivan expects a hard fight from the Purple and White squad in London.

The Western running attack has proven to be the most formidable in the league this year. Their backfield which has speed and power is built around Ralph Simmons who scored two touchdowns against Queen's. Garnet Mason, Brian Young, Walt Delahey, and Desborough ran as much as they pleased up to the Redmen tenyard line in the previous meeting between the teams. In this game the McGill line made several goal line stands against the Western ground attack.

To date, the Mustangs have not shown a powerful passing attack. Quarterback John Girvin has two experienced ends in Don Killinger and Bob Labbett and Sullivan was not discounting the possibility that Western would throw more than their ground attack at the Redmen.

Two big tackles anchor Metras' line. They are Mustang captain Ted Collins and all-star Ted Roman. Both are veteran performers who played well for Western in Montreal three weeks ago.

Before the season started, Metras called this year's edition of the Mustangs the best team he ever coached. That team is now in last place but observers feel they have shown too much power to be discounted.

## Anderson's Basketball Squad Starts Training

Basketball coach Joe Anderson held his first workouts this week at the Currie Gym. The McGill basketball team finished fourth last year in a six team league.

According to Anderson there were no great surprises in the opening practices. Only two of last year's team have graduated including former captain Mel Mikalachki, a high-scoring guard. The rest of last year's varsity as well as most of the Indians of a year ago were out at the practices.

Once again, Anderson plans to build his team around Leon DuPlessis. DuPlessis led the league in scoring last year and the six foot four inch bucket man is being counted on to maintain or better his 20 point per game average.

The newcomer who is given the best chance to break into the Redmen's starting lineup is Don Wright who played on last year's Intermediate squad. Wright has been a top scorer for Montreal High and YMHA teams in the past and averaged more than twenty points per game for the Indians. Anderson plans to try Wright in Mikalachki's guard position.

Other returning veterans from last years squad are 'Dapper' Lou Gordon, Johnny Thompson, Ozzie Zommers, George Rosenberg, Finney Heffernan, Jerry Kushner and Leung. With this nucleus Anderson expects his team to be much

(Continued on Page 4)

### SQUASH NOTICE

The Round Robin Draw is now posted in the Squash Court Hallway. Will the following players play all their matches without delay — NOW.

#### Flight A

A. LaFleur, M. Brodeur, J. Ensink, J. Haly, T. Wagg, P. Walsh, R. Newton, R. Weeks, R. Heenan, P. Northey.

#### Flight B

H. LaFleur, J. Brodeur, D. Brock, P. Brock, M. Carpenter, E. Butterworth, T. Bishop, D. Budge, F. Meadow, D. Guthrie.

### SKI PATROL

The newcomers course of the Canadian Ski Patrol will start tomorrow night at 8 pm at Westmount Junior High. All students interested are urged to attend.

## REDUCED RATES FOR DRAMA

Tickets are still being sold for the drama "Tea and Sympathy" which is running at Her Majesty's Theatre. SCOPE has arranged for special reduced rates for students amounting to 25 per cent discount on certain seats in the orchestra and the balcony. These rates are not available, however, for the Friday or Saturday shows.

Similar discounts are also in effect for the Marcel Marceau performances at the Monument National Theatre on St. Laurent Blvd. They include the Tuesday, Wednesday and Thursday presentations, this week and next. Students must show library cards as identification in order to take advantage of these offers.

Which reminds me . . .  
I have a date tonight.

## PROF WOONTON TO RECEIVE HONORARY DEGREE AT LONDON

Professor G. A. Woonton, Head of the Physics Department at McGill, will receive the honorary degree of Doctor of Science at Western University's Fall Convocation tomorrow.

Professor Woonton has been working for the last four years on the McGill Fence with other members of his department. The fence forms a major part of North America's continental protection against invading air forces. The plan was started in 1953 and the set-up was to act as an intermediate plane-spotting field aided by technological developments effectuated at McGill.

Before he came to McGill, in

1948, Professor Woonton was Research Professor of Physics at the University of Western Ontario. As well, he is Past President of the Canadian Association of Physicists and a member of the Royal Society of Canada.

## coming events

THURSDAY, OCTOBER 27

**LUTHERAN STUDENT ASSOCIATION:** Report on recent L. S. A. convention held in Waterloo, by Wayne Hypponen, at 5:30 pm in SCM House, 3625 Oxenden Ave.

**WESTMINSTER FELLOWSHIP:** Study and discussion group; all Presbyterians welcome at 5 pm room W115 in Arts Building.

**DUPLICATE BRIDGE CLUB:** The first tournament of the year will be held at 7:30, in the Union Grillroom.

**CCF-SOCIAL DEMOCRATS:** A general meeting will be held at 1 p.m. in the Walter Stewart Room in the Union.

**GERMAN CLUB:** There will be a meeting at 8:15 p.m. on the second floor of the Union. Guest speaker is Mr. R. Pennington, McGill University Librarian. He will talk on "Faust, The Devil's Printer", in English. Everyone is welcome.

**CAMERA CLUB:** The second exhibition of cameras and other photographic equipment is to be held in the Union Lounge at 8:30 pm. Everyone is welcome.

**ESTONIAN STUDENT SOCIETY:** Meeting at 495 Prince Arthur, Apt. 16. It is important that all Estonian students attend.

**LIBERAL CLUB:** General business meeting at 1 pm in the Union Salon.

**HILLEL:** The debate that was to be held today has been postponed to Wednesday, Nov. 2, at 1pm in the Stewart Room of Union.

**MUSIC CLUB:** Recorded concert—Vivaldi—Concerto from 1-2 pm in Union Clubroom. Everybody welcome. Orchestra rehearsal from 7-9 pm in Stewart Room. Bring your own music stands if possible.

FRIDAY, OCTOBER 28

**NEWMAN CLUB:** Hallowe'en dance tonight at the Newman House, 3484 Peel St. All Catholics are invited. Refreshments will be served. Admission is \$.50c.

**SPANISH CLUB:** There will be a party in the Union Lounge at 8:30 pm. Admission and refreshments are free. Everyone is welcome.

**FOLK MUSIC CLUB:** First regular meeting from 1-2 pm in Union Clubroom. Records will be played. Everybody welcome.

**SCOPE:** Professor Blackmuir, poet and critic will speak at 8:30 pm in Moyse Hall. Student admission free on showing of library card.

**UNITED NATIONS CLUB:** Mr. A. D. Webster, who has recently travelled to Asia and Africa, will give a talk, illustrated by slides at 1 pm in Arts Building.
